

# Simply Beautiful®

Long-lasting color. Simple to choose. Simple to use.

# 7

Warm Season

If you want something really unique and interesting, these two plants offer the best performance with an eye-catching display. The distinctive flower form of Fusion draws attention, while the textured foliage of Live Wire allows for a "touchable" container. Keep the soil moist, especially during high heat conditions.

12 to 16 in. (30 to 40 cm)

1 Live Wire Grass  
*Isolepis Cernua*
